PRICE MOVEMENTS IN NAMIBIA; FEBRUARY 2022

1 April 2022
Outline

1. Introduction
2. Weights and Price Quotations
3. Uses of CPI
4. NCPI Key Highlights of February 2022
5. Purchasing Power of N$
INTRODUCTION
Definitions

Consumer Price Index

The Consumer Price Index (CPI) measures the average change in prices over time that consumers pay for a basket of goods and services.

Producer Price Index

The Producer Price Index (PPI) measure the rate of average change in the prices of goods and services as they leave the place of production or as they enter the production process.
The **Consumer Price Index (CPI)** and the **Producer Price Index (PPI)** are economic indicators that measure inflation.

**Consumer Price Index (CPI)**

- CPI measures the change in prices for the goods and services purchased by the consumers.
- Excludes business activities and export.
- Includes imports and VAT.

**Producer Price Index (PPI)**

- PPI measures the changes in prices received by the business for the goods and services produced.
- It includes domestic and export prices.
- Basic prices collected excluding any taxes, transport and trade margins that the purchaser may have to pay.
## Composition of NCPI and NPPI

Price Collection Methodology of CPI

• Personal visit to the establishments/retail outlets
• Monthly, quarterly, annually and when announced by relevant authorities.
• Data collection begins on the first two week of every month for 10 days
• Electronic price collection was recently introduced (using tablets)
NCPI Geographical Coverage

- NCPI is grouped into three (3) zones:
  - **Zone 1**, Katima Mulilo, Oshakati and Otjiwarongo
  - **Zone 2**, Windhoek
  - **Zone 3**, Gobabis, Swakopmund, Mariental and Keetmanshoop
Base Period

- The period for which the value of the CPI is set to 100
- December 2012 = 100
- Index for February 2022 = 150.1
- Annual inflation rate for February 2022 = 4.5%
- Monthly inflation for February 2022 = 0.2%

USES OF NCPI
Uses of NCPI

- CPI’s are commonly used as a proxy for the general rate of inflation.
- It plays a major role in formulating the monetary and fiscal policy of government.
- It is often used, among other indicators, to assess the effectiveness of government economic policy.
- Traditionally, the CPI is commonly used for adjustment of wages, pensions and social security benefits to compensate for erosion of purchasing power as prices increase.
- Furthermore, many financial arrangements make use of the CPI. For instance, payments associated with private contracts, insurance premiums, rent, etc. are often indexed on the CPI.
- Deflation of National Accounts
