Chart 1: Transport Composite Cargo Index, Percentage Change

- The **Transport Composite Cargo Index** (Chart 1) consists of Road Cargo, Air Cargo, Sea Cargo, and Rail Cargo. The index rebounded by recording an increase of 8.5 percent in October 2022, in contrast to a deterioration of 15.7 recorded in the preceding month. However, the index posted a yearly decline of 4.1 percent.
- The monthly improvement is attributed to the high volumes of cargo for consignments transported during October 2022 via sea.
- Namibia transported 1 051 896 tonnes of cargo (through Sea, Rail, Road, and Air) in October 2022, compared to 969 870 tonnes and 1 096 841 tonnes that were transported during the preceding month and the corresponding month of 2021, respectively.

Chart 2: Sea Cargo Index, Percentage Change

- The **Sea Cargo Index** (Chart 2), which consists of Sea-landed, Sea-Shipped and Sea Trans-shipped increased by 20.1 percent in October 2022, in contrast to a deterioration of 33.1 percent posted a month earlier. However, the index posted a marginal reduction of 0.7 percent year on year, compared to an increase of 59.7 percent recorded in the corresponding month of 2021.
- The increase observed on a monthly basis in the Sea Cargo Index is mainly associated with the sea transhipped cargo, sea shipped cargo and sea landed cargo that registered high volumes of goods transported.

Chart 3: Sea Trans shipped Index, Percentage Change

1

- The Sea Trans Shipped Index (Chart 3) for October 2022 slowed down recording an increase of 143.7 percent monthly, downward from a huge growth of 273.6 percent posted in the preceding month. Conversely, the index declined by 9.5 percent year on year.
- The total volume of goods transhipped by sea during the month of October 2022 amounted to 11 089 tonnes compared to 4 550 tonnes and 12 247 tonnes that was registered in September 2022 and during the same month of 2021, respectively.

¹ This graph is limited to -100 percent and 100 percent for better presentation.

Chart 4: Sea Shipped Index, Percentage Change

- The **Sea Shipped Index** (Chart 4) for October 2022 rebounded on a monthly basis, recording an increase of 32.2 percent, upward from a deterioration of 15.7 percent registered in the previous month. Moreover, the index increased by 55.3 percent year on year.
- The improvement recorded monthly was mainly derived from high volumes of cargo for salt bagged, frozen fish, scrap steels, marbles, flat cartoons shipped through the port of Walvis Bay.
- During the period under review, a total of 362 174 tonnes of goods were shipped via sea compared to 274 037 tonnes of cargo shipped in September 2022.

Chart 5: Sea Landed Index, Percentage Change

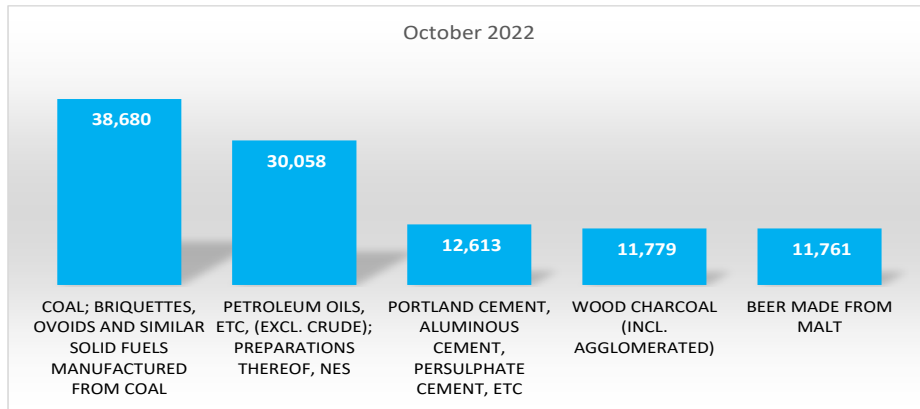

- The **Sea Landed Index** (Chart 5) increased during the period under review, registering a growth of 1.1 percent on monthly basis, upward from a deterioration of 48.3 percent recorded in the preceding month. Opposite, the index recorded a decline of 38.9 percent year on year.
- The increase recorded monthly stemmed from the high volumes of landings for vehicles on own wheels, steel and spare parts, frozen fish and the landing of empty containers imported through the ports of Walvis Bay and Lüderitz. A total of 207 041 tonnes of goods were landed by sea during the month of October 2022.
- The total of 580 305 tonnes of cargo were transported by sea in October 2022, compared to 483 281 tonnes recorded a month earlier. Whereas the total volume of cargo shipped for October 2021 stood at 584 453 tonnes.

Chart 6: Road Cargo Index, Percentage Change

- The **Road Cargo Index** (Chart 6) increased monthly by 1.5 percent in October 2022, as opposed to a growth of 5.4 percent recorded a month earlier. However, the index recorded a decline of 10.2 percent year on year.

Chart 7: The distribution of road cargo by product in tonnes

- The consignments of Coal, Petroleum oils (except crude) and Portland cement dominated the road cargo during the reporting period claiming 38 680 tonnes, 30 058 tonnes and 12 613 tonnes, respectively.

Chart 8: Rail Cargo Index, Percentage Change

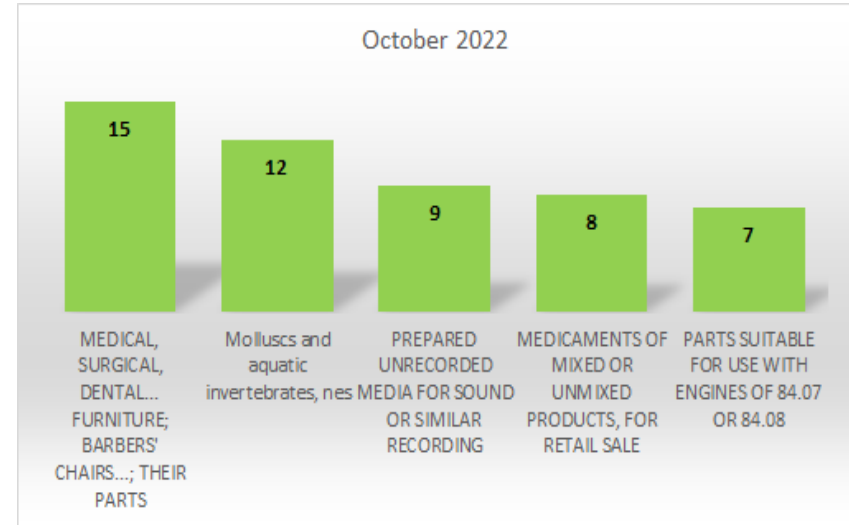

- The **Rail Cargo Index** (Chart 8) contracted on a monthly basis, recording a reduction of 13.8 percent in October 2022, in contrast to a growth of 39.2 percent registered in the preceding month. Similarly, the index declined by 0.7 percent, better-off when compared to a deterioration of 17.2 percent recorded in the corresponding month of 2021.
- The decline registered on a monthly basis emanated from the low volumes of manganese and sulphuric acid transported via rail.
- Cargo amounting to 123 687 tonnes was transported via rail during the month under review, compared to 143 517 tonnes in September 2022 and 124 581 tonnes in the corresponding month of 2021.

Chart 9: Air Cargo Index, Percentage Change

- The **Air Cargo Index** (Chart 6) declined monthly by 54.0 percent in October 2022, a deterioration when compared to a growth of 1.6 percent registered a month earlier. Similarly, the index posted a yearly decline of 54.0 percent.

Chart 10: The distribution of air consignment by type of good in tonnes

- For the period under review, a total of 206 tonnes of goods were transported via air. The goods transported via air were dominated by consignments of medical equipment's, molluscs and aquatic invertebrates and prepared unrecorded media for sound and similar recordings amounting to 15 tonnes, 12 tonnes and 9 tonnes, respectively.

Table 1: Cargo by mode of transport in tonnes

Methodology

- Data source** : The volume data for rail cargo are sourced from Trans-Namib, while the source for road and air cargo volume data is from the Namibia Statistics Agency (Trade Statistics Sub-division). Volumes of Sea cargo, which comprises of sea-landed, sea-shipped and sea Trans-shipped, are sourced from Namport.
- Index calculation** : The index of cargo has been weighted using the volume data in tonnes for 2015.
- Conversion** : 1 basis point = 0.01 percent
